Preparing children for the right next step

For twenty-five years, Parsons Green Prep has been proud to serve families in Fulham, guiding children on a happy, ambitious and nurturing educational journey. While much has changed during this time, the school's commitment to knowing every child as an individual remains at the heart of what it does.

A key part of this journey is supporting families through the 11+ process. Choosing a senior school can feel daunting, particularly in London where there is such a wealth of excellent options. The philosophy at Parsons Green has always been simple: there is no single 'best' school, only **the school that is best suited to each individual child**. Through careful guidance, honest advice and a detailed understanding of both pupils and the senior school landscape, the school works closely with families to identify the right destination for every child.

Parsons Green is justifiably proud of its strong record of success, which sees pupils moving on each year to an impressive range of highly regarded day and boarding schools. Just as importantly, staff and teachers take satisfaction in knowing that children leave the school confident, well-prepared and excited about the opportunities ahead.

This commitment to partnership was evident once again at the school's recent **Senior School Fair**, which proved to be a tremendous success. Representatives from a wide variety of leading senior schools attended, offering families the chance to meet admissions teams, ask questions and gain valuable insights into different educational pathways. The breadth of schools represented reflected the diverse aspirations, interests and talents of the pupils and highlighted the strength of the relationships Parson's Green has built across the independent education sector.

As the school celebrates twenty-five years in Fulham, its focus remains on supporting families at every stage of their child's education, taking pride in the community it has built, grateful for the trust of parents and excited about helping the next generation of children.
